

How do you move up to Profit Power?

First, Discuss with Lantrax staff how you use BOS now.

- Enter accepted offers and close sales transactions.
- Calculate agent commissions using commission plans.
- Pay agents with checks and/or direct deposits.
- Maintain agent accounts receivable.
- Report closed sales a franchise.
- Interface with a financial accounting system.

Second, Identify useage and company size

- Count of agents and offices.
- Company size in terms of transaction units and volume.
- Identify central office closing staff.
- Identify other central office data entry and reporting users.
- Identify branch level users and how they use BOS.

Third, Define with Lantrax staff:

- Which Lantrax Back Office program is appropriate for your company:
 - Profit Power Enterprise (PPE).
 - Profit Power Professional (PPP).
- General Training Schedule and Estimated Go Live date
- Evolve and Agree to the Lantrax Service and License Contract deliverables and costs.

Fourth, Initiate Training and Installation process through completion and go-live.

- Lantrax and Brokerage Staff schedule and complete training content, timing, and participants.
- Customer provides details and Lantrax sets up varous processes for customer testing such as:
 - Check printing and Direct Deposit processing
 - Commission plan definitions and assignment
 - Agent account item definitions and assignment
- Lantrax training staff online meets with users to learn and complete:
 - Transaction types definitions and entry procedures
 - Referral types and entry procedures
 - Time to time BOS to Profit Power agent roster, outside companies, closed sales data conversions for testing.
 - Closing procedures including verification steps and commission payment processing.
- Customer Go Live on PPP or PPE
 - Lantrax staff clears out all practice data and re-converts closing data from BOS to Profit Power
 - Customer staff begins all new data maintenance and business processing in Profit Power
 - Customer stops entering new business into BOS
 - BOS access is provided by Lantrax Cloud for historical production reporting & marketing, obtaining past transaction details including buyer-seller-commission details.
